Residential Life and Fire Safety
The UW Colleges is committed to providing its students and staff with a safe environment in which to live, study and work. As part of this commitment, each Residence Hall undertakes a stringent annual review of its fire safety program including policies and procedures for conducting fire and evacuation drills, the inventory and maintenance of fire detection and suppression systems, and in-service training for students and staff.

Each Residence Hall conducts regular fire and evacuation drills pursuant to federal, state and local statutes. The purpose of conducting fire drills is to familiarize students and staff with the closest evacuation points of the buildings they are in at the time a fire alarm sounds, and to ensure the orderly and complete evacuation of the building in the event of an actual emergency and/or the activation of a fire alarm.

UW-Marinette (in conjunction with the building owner) conducts two supervised fire drills each year, one per semester.

Fire Protection Systems
UW-Marinette Student Apartment Housing does not have a sprinkler system. Fire extinguishers are strategically placed throughout the facility. Training is provided on the use of the extinguishers each year. The fire alarm system is up-to-date and tested quarterly. The local fire department also conducts periodic and regular safety checks.

Residents agree to abide by all state and federal laws, and all university and rules and regulations are outlined in the UW-Marinette Student Housing Rights & Responsibilities Handbook.

Evacuation Procedures
All persons must evacuate the student apartment building when the fire alarm sounds. Please stay out of the way of emergency officials. Do not attempt to re-enter the building until the Housing Director and Community Advisor have given clearance to return to the building.

Fire Log
In compliance with federal law, UW-Marinette maintains a daily fire log listing all student housing fires, including the nature of the fire, date, time and general location. UW-Marinette complied with this rule by including all fire alarm and fire-related incidents in the 2014 Fire Log summarized below.
