PURPOSE OF THE WISCONSIN COLLEGIATE CONFERENCE

The educational development of the participating student athletes is the primary concern.

To that end, the purpose of this organization shall be:

1. To ensure that intercollegiate athletics is an integral part of the college under control of those responsible for the administration of the institution
2. To promote and coordinate intercollegiate athletics for the member colleges.
3. To ensure that equal emphasis is given to men’s and women’s sports by fairly and equitably distributing athletic opportunities and resources to all athletes and teams.
4. To maintain fair play and sportslike behavior within competitive events so that the concomitant educational values of those experiences are emphasized.
5. To conduct activities approved by the governing bodies of the Conference.

Equity in Athletics Disclosure Act

The Equity in Athletics Disclosure Act requires co-educational institutions of postsecondary education that participate in a Title IV, federal student financial assistance program, and have an intercollegiate athletic program, to prepare an annual report to the Department of Education on athletic participation, staffing, and revenues and expenses, by men's and women's teams. The Department will use this information in preparing its required report to the Congress on gender equity in intercollegiate athletics.

Equity in athletics data is now available on the web at: http://ope.ed.gov/athletics. This site provides data from thousands of colleges and universities in a convenient searchable form.
Section 1. Membership and Representation

Membership in the Wisconsin Collegiate Conference shall be restricted to the campuses of the University of Wisconsin Colleges. These campuses exist primarily for the educational purposes stated for the UW Colleges in the University Board of Regents document entitled, “Mission of the University of Wisconsin System”. Athletics play an important role in that educational mission.

Section 36.09(4), Wisconsin Statutes, states that the faculty shall have the “primary responsibility for academic and educational activities”. Moreover, national athletic associations mandate that athletics must be directly under the aegis of the faculty. The Wisconsin Collegiate Conference is the vehicle to coordinate the intercollegiate athletic programs of the UW Colleges and to accomplish the basic principle of faculty primary responsibility.

Each of the campuses comprising the conference is entitled to one faculty representative and one vote. Each representative will be elected by the Collegium or the Collegiums’ designated committee to serve for a two-year term and must be a faculty or academic staff member who does not receive pay primarily for services connected with athletics or the Department of Health and Exercise Science.

To insure student input into the conduct of athletics and the Wisconsin Collegiate Conference, each member campus shall establish an athletic committee, or functional equivalent thereof, having students represented in its membership. The faculty representative of each campus shall be a member of that campus committee. The athletics director, as campus administrator of the intercollegiate program, shall be an ex officio member of the campus committee on athletics, with voting or nonvoting status as determined by the local College Collegium.

In keeping with the principles of faculty responsibility for the educational endeavor of the University of Wisconsin Colleges, the legislative authority in the conference resides in a council of faculty representatives. Any action by the directors of athletics or the commission may be reviewed and revised by the council.

Having affirmed the principles of faculty control and student representation, the Wisconsin Collegiate Conference recognizes that as an integral part of the education enterprise of the Wisconsin Colleges, it is subject to all statutes and policies pertaining to the institution. Further, it shall be responsive to the needs and objectives of the individual campuses and the administration of the UW Colleges. The following chart represents the organizational relationships of the Wisconsin Collegiate Conference with the University of Wisconsin Colleges and is not intended to describe in detail the procedures at individual campuses.
The Dean maintains an advisory relationship with the faculty representative on matters regarding the position taken by the faculty representative at the conference level.

Section 2. Separation of Operating Functions

The functioning of the conference falls naturally into two parts: (1) the making of rules and regulations, a legislative function; (2) the administration and enforcement of those rules and regulations and of the activities of the conference generally, an administrative and executive function.

The faculty representatives have the legislative authority, though as pointed out below, they may delegate that authority within certain areas to the directors of athletics.

The directors of athletics, together with the commissioner, constitute the administrative organization directing the athletic programs on their campuses under the legislation of the conference.

Section 3. Legislation

Legislative authority over membership in the conference and eligibility for competition in intercollegiate athletics is reserved exclusively to the faculty representatives.

A majority of the representatives present shall be sufficient to pass new legislation which will become operative in sixty days provided there is no protest made of it by a member school within that time interval. During the 60-day interval, such legislation must be submitted to the athletic committee or faculty of each member school for approval. If, within the 60-day period, one or more of the schools reject such legislation and have notified the other member schools through the commissioner to that effect, that legislation must be considered at the next regular meeting, and if passed again, becomes operative from the time of the second passage. Any action by the faculty representatives that involves merely internal administrative duties is not considered a measure within the scope of the above regulations.
Section 4. Administration

 Responsibility for the enforcement of conference legislation rests with athletic directors functioning, however, in large measure through the commissioner.

 The lines separating areas of responsibility and authority cannot be sharply drawn. Each group should be mindful of the interests and functions of the others and will not only seek advice and suggestions from the others, but will give them sympathetic consideration.

 ARTICLE II. FACULTY REPRESENTATIVES

Section 1. Officers

 Chair  The faculty representatives shall elect a chair at the spring meeting.

 Secretary  The commissioner is ex officio secretary without voting power.

Section 2. Meetings

 Two regular meetings are held each year, one in the fall and one in the spring. Notification of these meetings should be given 30 days in advance. It is recommended that faculty representatives meet approximately six weeks after the athletic directors’ meeting.

 At the special request of three members, the chair shall call a special meeting. The chair may call a special meeting on his/her own motion, as may the commissioner.

 Minutes of all meetings of the faculty representatives shall be made available promptly to the chancellor, deans, faculty representatives, the commissioner and athletic directors. An annual report shall be prepared by the commissioner which shall include expenditures of the conference.

Section 3. Quorum

 A majority of the membership shall constitute a quorum for the transaction of business.

Section 4. Legislative Procedures

 A majority vote of the membership present is sufficient to pass any measure.

 Any of the conference rules may be suspended until the next called meeting by a mail vote showing a majority of affirmative votes from the faculty representatives. The vote is to be taken by the commissioner when requested by the chair of the faculty representatives, three faculty representatives, or the commissioner’s office.
Section 5. Reinstatements

The faculty representatives will not entertain applications or motions for a reinstatement to eligibility unless the case involved has been investigated and reported upon to them by the commissioner.

Section 6. Standing Committees

There shall be a standing Committee on Eligibility and a standing Committee on Agenda and Rules elected by the faculty representatives from their membership.

The Committee on Eligibility shall consist of three members. The commissioner shall be an ex officio nonvoting member of the committee. The committee has final jurisdiction, subject only to the vote of the faculty representatives as a whole, in matters affecting the status of conference athletes under the rules of eligibility, which matters may be submitted to the committee only by a faculty representative or by the commissioner. When a case to be considered involves the eligibility of an athlete at a campus whose representative is a member of the committee, it shall be the duty of the committee chair to advise the chair of the faculty representatives of this fact and the chair of the faculty representatives shall appoint another representative to act as a member of the committee in such particular case.

On the basis of information in the hands of the Committee on Eligibility suggesting a strong probability of the ineligibility of any conference athlete, that the athlete be withheld from competition until satisfactory proof is obtained establishing his/her eligibility.

The Committee on Eligibility is required to submit annually to the faculty representatives, in writing, reports of all its action, which reports shall become part of the minutes.

The Committee on Eligibility is authorized, between meetings of the conference, to review cases of sufficient urgency that, by conference regulations require the action of all faculty representatives, and to submit such cases, together with its recommendation, to the faculty representatives for a vote by mail.

The Committee on Agenda and Rules shall consist of three members. The commissioner shall be an ex officio nonvoting member of this committee. This committee shall solicit the faculty representatives for items to appear on the agenda of the next meeting of the faculty representatives, prepare and circulate the agenda for the meeting, study the rules and regulations, and upon request of a representative, prepare the wording of a proposed measure and present it to the faculty representatives together with any recommendations the committee may care to make.
ARTICLE III. DIRECTORS OF ATHLETICS

Section 1. Officers

Chair  The directors of athletics shall elect a chair at the spring meeting for a two year term.

Secretary  The commissioner of athletics is ex officio secretary without voting power.

Section 2. Meetings

Two regular meetings are held each year, one in the fall and one in the spring.

At the request of three or more members, the chair shall call a special meeting. The chair may call a special meeting on his own motion, as may the commissioner.

An annual conference budget will be prepared by the commissioner with the assistance of the directors of athletics and presented to the faculty representatives for approval.

UW Colleges administration provides funding for the conference office to cover the cost of the conference budget. In case of insufficient funds to meet expenses in any one year, the commissioner may make special assessments if necessary with the approval of the faculty representatives.

1. To serve as the chief administrative officer of the Wisconsin Collegiate Conference.
2. To serve as the principal enforcement officer of the conference rules and regulations.

ARTICLE V. PENALTY AND APPEAL PROCEDURES

A faculty representative or a director of athletics may request like officials at another member campus to investigate within their campus alleged violations of conference rules. As a principle of conference policy it is recommended that such requests be made and the answers considered prior to the lodging of formal complaints with the conference office.

The commissioner shall receive and investigate reports of alleged violations of the conference rules of eligibility and regulations. Complaints must be detailed in writing, endorsed by both the faculty representative and the director of athletics and submitted to the commissioner only through the faculty representative or the director.

The commissioner shall be the principal enforcement officer of the conference rules and regulations. He/she shall, upon the request of the director of athletics or faculty representative of any member campus showing reasonable grounds therefore, or upon his/her own initiative, make such investigations as may be necessary to determine whether there has been a violation.

If such investigation reveals that a violation may exist, he/she shall inform the dean, the faculty representative, and the director of athletics of the member campus involved, and affords an opportunity to be heard. If after a hearing, or failure of such campus to appear for a hearing, he/she concludes there is a violation, he/she is empowered to impose penalties as provided below:

8. Amateur Status - Principle of Amateurism and Student Participation

An amateur student-athlete is one who engages in athletics for physical, mental, social and educational benefits he/she derives therefrom, and to whom athletics is an avocation. One who takes or has taken pay, or has accepted the promise of pay, in any form for participation in athletics, or has directly or indirectly used his athletic skill for pay in any form, shall not be eligible for intercollegiate athletics, it being understood that a student-athlete may accept scholarships or educational grants-in-aid from his/her institution provided such aid is not in conflict with governing legislation of this conference.

Compensation paid to a student-athlete for work performed not only must be commensurate with the going rate in that locality for services of like character, but also must be given for services actually performed and not for services expected or promised to be performed that never in fact are performed. Such compensation may not include any remuneration for value or utility which the student-athlete may have for the employer because of the publicity, reputation, fame, or personal following the student-athlete has obtained because of his/her athletic ability.

A student-athlete may receive reasonable compensation for supervision of physical education, playground or recreational activities not involving extra pay for coaching. The student-athlete also may work in a tennis or golf shop provided he/she does not give instruction for compensation.

Officiating: A student-athlete may officiate when the remunerations are for reasonable expense only.

Professional Standing: An athlete who becomes a professional in one sport will be a professional in that sport only, and thus ineligible for intercollegiate competition in that sport during the time he/she is ruled a professional athlete.

9. Outside Competition During Academic Year

During the season a member of a freshman or varsity team in any sport may not play in that sport on an amateur team which is not connected. The penalty shall be suspension in that sport for one year from the date of enforcement. The student-athlete shall, however, be declared ineligible as of the date of the infraction and all contests in which that person participated after the date of the infraction shall be forfeited.

This shall not apply to persons becoming eligible at the beginning of the second semester.
Official Interpretation: This rule shall not be construed to prohibit (1) a student’s participation in the intramural program of his institution; (2) student’s participation as an unattached individual at his/her own expense whether or not that occurs during the season (tennis, golf, cross country); (3) participation in Olympic or Pan-American games or their regular designated trials; (4) student-athlete’s participation in high school alumni activities.

10. No student shall play in any game under an assumed name.

11. Part-Time Student Participation
   a. The student must attend that same UW College at least one academic year as a part-time student prior to participation, passing at least 12 credit hours with a cumulative G.P.A. of 2.00 or better.
   b. During each term of participation, the student must carry at least 6 credit hours at the same UW College.
   c. Prior to a second season of participation in any sport, the student must pass a minimum of 24 credit hours with a cumulative G.P.A. of 2.00 or higher.
   d. A student who withdraws to less than 6 credit hours becomes immediately ineligible.
   e. UW-Colleges which apply for this provision of the rules, must submit a transcript to the WCC Commissioner to establish the eligibility of the student.

12. Transgender Student Athlete Participation
   a. The Wisconsin Collegiate Conference (WCC) will follow the policies and procedures set forth by the National Collegiate Athletic Association (NCAA) with issues, questions, and concerns surrounding transgender student-athletes.
13. **Hardship**

Hardship is defined as an incapacity resulting from a season-ending injury or illness that occurred. If the season-ending injury or illness occurs when the student-athlete has not competed in more than one-third of the team’s contest or dates of competition, the student may request an extension of eligibility in that sport proving the following condition are met:

A. The student participated in not more than one third of the team’s contests during the season.

B. The faculty representative and athletic director of that campus certify that the competitions to be forgiven were the only competitions experienced during the season in question.

   NOTE: In Basketball, a semester extension may be granted if hardship occurs during the first one-third of the contests of that semester.

C. The petition for waiver shall be certified by a physician to the effect that the injury prevented further practice or play for the remainder of the season and includes the following:
   
   1. Date of injury.
   2. Anatomical diagnosis of the injury.
   3. Treatment prescribed.
   4. Medical reasons for terminating further competition that season.

   **NOTE:** All decisions on hardship shall be referred to the eligibility Committee through the Commissioner. The Faculty Representative is to be consulted before an appeal is sent to the Commissioner.
WISCONSIN COLLEGIATE CONFERENCE

Student – Athlete Code of Conduct

The Wisconsin Collegiate Conference provides opportunities for students attending its member schools to participate in intercollegiate athletic contests. This is a service provided by member schools for the overall benefit of the students. Participation is therefore a privilege available to students, not a right. As such, it is imperative that the students choosing to participate in intercollegiate athletics represent the member schools in a positive manner that helps to maintain or improve the image of the member schools within their respective communities. In keeping with that goal, the following items make up the code of conduct that student-athletes are expected to follow.

1. The main objective for student-athletes in the WCC is to obtain a quality education that will provide opportunities in the future. Accordingly, student-athletes are expected to maintain a high scholastic average and display leadership in classroom attendance and participation.

2. The WCC eligibility standards will dictate the academic requirement necessary for participation. A student-athlete must carry a minimum of 9 credits and maintain a GPA of 1.75 for the first semester and a cumulative GPA of at least 2.00 for each semester thereafter.

3. Trash talking in any manner including profanity, obscene, racial, or sexual language or gestures, and physical or verbal assault have no part in an athletic program and will not be tolerated. The coach for the individual is responsible to uphold a zero tolerance policy.

4. Attention to dress and grooming will be stressed. Team members will be expected to keep themselves and their attire clean and neat at all times, but especially when representing their school away from campus. The individual coach shall make the ultimate decision as to whether the particular grooming of athletes is in interference to their best performance or that of fellow athletes.

5. Each coach and/or Athletic Director will determine policies regarding attendance at practice, protocol for game days. There will be no use of tobacco products, drinking of alcoholic beverages, or use of illegal drugs in connection with any varsity athletic event. This includes travel, overnight, and at the contest. Conference sponsored events, along with all intercollegiate competition is covered by these rules. As stated in the Student Rights and Regulations handbook, “Violation of these provisions by a student may lead to the imposition of a disciplinary sanction, up to and including suspension or expulsion under s. UWS 17.03(1)(b), Wis. Adm. Code.”

6. Student-athletes are expected to take pride in their team, their coaching staff, their campus and their community. It is expected that student-athletes will be team oriented and will strive for the success of the team over individual success.

MAX SPARGER SCHOLAR ATHLETE AWARD

Each year the most outstanding scholar-athlete from each member campus shall be awarded the conference Scholar-Athlete Award, the highest honor achieved by a conference athlete. The award is made to the sophomore exhibiting the greatest combination of performance and achievement in scholarship, athletics and leadership. Each campus will select the award winner and submit the following information to the conference office: Name and major, cumulative grade point average, the sports in which the athlete participated, and his/her standing in school. To be eligible for this award, the student-athlete must have a cumulative grade point average of B or better and must be of sophomore class standing in school.

There are three criteria:

1. Outstanding athletic ability and performance.
2. Outstanding academic application and performance.
3. Outstanding school leadership and citizenship.

The athlete need not necessarily be the finest athlete in the conference, but should certainly be a good one. The person should obviously be a team player, person with courage, persistence, sportsmanship, and an overall feeling for athletics with proper respect for coaches, teammates, opponents and school.

So far as scholarship is concerned, the athlete needs not be a straight “Grade A” scholar, but should be studious, persevering, dedicated, and has supportive academic credentials. This person should be a better than average student, interested in schoolwork, and without serious subject weakness. This athlete should be a person who is appreciated by teachers.

Leadership is more difficult to judge, but certain individuals are outstanding in their social affairs and respected by their friends. This student-athlete should have an interest in many of the aspects of campus life. This individual need not be the president of the class, or the person with the highest marks or most letters, but should be well-respected, and a person whose attitudes and actions are considered to be an example by others.
SCHOLASTIC HONOR ROLL

The purpose of such honor roll is to give encouragement to, and recognition of, superior academic performances by athletes engaged in intercollegiate sports.

Designation for honor roll status is to be determined on the basis of grade-point average attained during an academic year. Any varsity athlete who attains a grade-point average of 3.0 (based on a 4.0 rating basis) for two semesters shall be designated for the honor roll, provided he/she completed a minimum of 24 semester hours during the normal academic year. WISCONSIN COLLEGIATE CONFERENCE

Student – Athlete Code of Conduct

The Wisconsin Collegiate Conference provides opportunities for students attending its member schools to participate in intercollegiate athletic contests. This is a service provided by member schools for the overall benefit of the students. Participation is therefore a privilege available to students, not a right. As such, it is imperative that the students choosing to participate in intercollegiate athletics represent the member schools in a positive manner that helps to maintain or improve the image of the member schools within their respective communities. In keeping with that goal, the following items make up the code of conduct that student-athletes are expected to follow.

1. The main objective for student-athletes in the WCC is to obtain a quality education that will provide opportunities in the future. Accordingly, student-athletes are expected to maintain a high scholastic average and display leadership in classroom attendance and participation.

2. The WCC eligibility standards will dictate the academic requirement necessary for participation. A student-athlete must carry a minimum of 9 credits and maintain a GPA of 1.75 for the first semester and a cumulative GPA of at least 2.00 for each semester thereafter.

3. Trash talking in any manner including profanity, obscene, racial, or sexual language or gestures, and physical or verbal assault have no part in an athletic program and will not be tolerated. The coach for the individual is responsible to uphold a zero tolerance policy.

4. Attention to dress and grooming will be stressed. Team members will be expected to keep themselves and their attire clean and neat at all times, but especially when representing their school away from campus. The individual coach shall make the ultimate decision as to whether the particular grooming of athletes is in interference to their best performance or that of fellow athletes.

5. Each coach and/or Athletic Director will determine policies regarding attendance at practice, protocol for game days. There will be no use of tobacco products, drinking of alcoholic beverages, or use of illegal drugs in connection with any varsity athletic event. This includes travel, overnight, and at the contest. Conference sponsored events, along with all intercollegiate competition is covered by these rules. As stated in the Student Rights and Regulations handbook, “Violation of these provisions by a student may lead to the imposition of a disciplinary sanction, up to and including suspension or expulsion under s. UWS 17.03(1)(b), Wis. Adm. Code.”

6. Student-athletes are expected to take pride in their team, their coaching staff, their campus and their community. It is expected that student-athletes will be team oriented and will strive for the success of the team over individual success.

Coaches Code of Conduct
A product of the Wisconsin Collegiate Conference

Coaches are expected to have the knowledge and preparation to lead their teams within the parameters outlined in the WCC handbooks.

Coaches are responsible to ensure that a student-athlete’s academic progress is the student-athlete’s priority.

Coaches are responsible to ensure that the health, well-being and development of athletes take precedence over the win/loss record. They are expected to exemplify honesty, integrity, fair play, and sportslike-conduct regardless of the impact that might have upon the outcome of the competition.

Coaches accept that they do serve as role models and there must be congruency between their actions and words. They should avoid situations that may be interpreted as inappropriate behavior by their players or public such as:
   a. Consuming alcohol in the presence of student-athletes
   b. Using nicotine products in the presence of student-athletes
   c. Using illicit drugs or recreational drugs.

Coaches should maintain a professional demeanor while acting as a coach of their squad. They should include but not be limited to the following:
   a. Treat the student-athletes with respect and maintain a professional relationship. The coach should model respectful language and actions while working with their student-athletes, coaching peers, community, or campus community.

   b. Maintain a professional and nurturing environment by creating a safe environment where players can thrive in practice and competition. The relationship should not grow into a dating, sexual, or peer relationship.

   c. Treat officials with dignity and appreciation for their efforts. Coaches are expected to avoid negative public remarks about an official’s performance and expect the same respectfulness/professionalism from their players.

   d. Sustain a positive work environment for all competition-day employees or volunteers.

   e. Speak outwardly about the positive aspects of their program and privately with an athletics director about the areas that need improvement.

   g. Discourage the use of performance enhancing substances and dietary supplements

   h. Coaches maintain confidentiality when appropriate and avoid situations that would potentially create a conflict of interest or exploit the athlete.

Athletes are encouraged to travel with the team in regularly scheduled vehicles, whenever possible—This *not only protects the UW System*, but also protects the coaches *and* athletes as well.

We recognize the need to have an acceptable alternate plan when conditions favor permitting the athlete to travel in a separate manner. Athletes are required to sign the following hold harmless statement indicating they have been notified they are responsible for their own safety when they voluntarily leave the *travel jurisdiction of the* coach and team.

**Athletic Travel Hold Harmless Agreement**
